Morocco, Marrakech

I am Khalid Daloui, a 28-year-old Graphic Designer and 3D artist. In my last role as Design and Innovation responsible at Torrecid, I combined my scientific background with my passion for design to lead innovative projects. My academic background in Chemistry provided me with a deep understanding of the scientific principles behind Ceramic innovations. Additionally, my creative flair enabled me to develop trendsetting designs that seamlessly integrated into our projects. I'm now looking for new opportunities to apply my skills in 3D design to make a positive impact in the gaming industry.
